1. From the **Home** screen, tap the **Settings** app.
2. Then, tap either **Cellular**.
3. Select **Personal Hotspot**.
4. Tap the slider next to **Personal Hotspot** to turn the feature ON.
5. If prompted with a pop up message, choose your preferred option. Among the given options include **Turn on Wi-Fi and Bluetooth, Wi-Fi, and USB only**.
6. Tap **Wi-Fi Password**, and then follow the onscreen prompts.
7. Type in your desired hotspot password. Required password must be composed of at least eight alphanumeric characters.
8. Then, tap **Done**.
